KHUMBUDZO BRANDAN RAMARU

IT Infrastructure & Systems Support — Endpoint | Networking | Security

ramarukb@gmail.com · +27 68 567 4755 · Gauteng, South Africa linkedin.com/in/ramarukb · github.com/MrDoItRight

SUMMARY

IT infrastructure and systems support professional (BSc IT, NQF 7) with hands-on experience across endpoint management, networking, and security. Comfortable imaging and deploying workstations, running endpoint security scans, supporting LAN/VPN connectivity, and working both field and service-desk operations. AWS-certified and CompTIA A+ certified, with practical scripting and cloud skills on top of a solid systems foundation. Reliable, action-oriented, and a fast learner.

SKILLS

Systems & Endpoint: Windows Server, Linux, Microsoft 365, endpoint management, OS imaging/formatting, hardware diagnostics, backups **Networking:** LAN/Wi-Fi, VPN, subnets, security groups, Wireshark (packet analysis), Cisco Packet Tracer **Security:** Microsoft Defender, vulnerability remediation, least-privilege IAM, Burp Suite, authorized penetration testing **Service Desk:** Fieldcode, MyDispatch, ticket logging & dispatch, end-user support **Cloud & Scripting:** AWS (EC2, S3, IAM, Lambda, Bedrock), Terraform, Docker, GitHub Actions, Python, Bash

EXPERIENCE

Cybersecurity Analyst (SETA Learnership) — Hemmersbach · Oct 2024 – Sep 2025

- Ran endpoint security scans with Microsoft Defender and applied remediation patches across company and client-site systems.
- Alternated between on-site client hardware repair alongside field technicians and service-desk operations — logging and dispatching tickets in Fieldcode and MyDispatch, running follow-up calls, and verifying user information.
- Performed authorized penetration testing against a purpose-built training login application, using Burp Suite and Hydra to demonstrate credential-based access weaknesses.
- Analysed network traffic with Wireshark and modelled network topologies in Cisco Packet Tracer.

IT Technician Assistant (Work Integrated Learning) — XTrader, Johannesburg · Sep – Nov 2023

- Imaged, diagnosed, and deployed 10+ user workstations, including hardware fault isolation and peripheral configuration.
- Supported office LAN and VPN connectivity, ran scheduled system backups, and onboarded new end users onto company systems and hardware.

Cloud Engineer (Internship) — Rekisa · Dec 2025 – Present

- Administered least-privilege IAM roles and policies and configured CloudWatch monitoring across development and staging environments.
- Migrated company websites to a serverless AWS architecture (Lambda, S3, API Gateway), reducing monthly hosting cost.
- Wrote Python and Bash automation to replace manual, repetitive console tasks.

Founder & Technical Lead — GenSage · Jul 2025 – Dec 2025

- Founded a pre-revenue venture; hosted web applications and configured DNS, SSL/TLS certificates, and database connectivity. Paused on starting the Rekisa internship.

CERTIFICATIONS

CompTIA A+ · AWS Certified Solutions Architect – Associate · AWS Certified Cloud Practitioner · AWS Certified AI Practitioner
Professional Certificates: Google Cybersecurity (Coursera) · Microsoft Power BI Data Analyst (Coursera)

EDUCATION

BSc Information Technology (NQF 7) — Richfield Graduate Institute of Technology · 2024
